ABOUT

Dynamic professional with a background in HR, now transitioning into front-end development. Holds a Master's in IT Management and a Frontend Developer certification from Scrimba. Passionate about building user-centric web applications, I bring a unique perspective combining people management skills with technical expertise in HTML, CSS, and JavaScript. Eager to apply my knowledge and creativity in a challenging front-end developer role, aiming to contribute to innovative projects and continuous learning in the tech industry.

EXPERIENCE

- **Front End Developer**
Jan 2023 - Present

Glowien

Leading web app development using HTML, CSS, JavaScript, and React.js. Focused on creating user-friendly interfaces, translating designs into web pages, ensuring browser compatibility, and optimising for speed. Collaborating with UX designers and backend teams, participating in code reviews, and staying updated with industry trends.

- **Assistant HRIS**
Jan 2018 - Jan 2022

Fosyt

At Fosyt, as an Assistant HRIS, I implemented and managed the HR Information System, enhancing my database management skills and software understanding, aiding my transition to web development. I analysed HR data to enhance employee experiences and developed project management skills applicable to software development lifecycles.

- **HR Intern**
Jan 2016 - Dec 2016

City of Gweru

In my role, I supported HR tasks like recruitment, engagement, and administration, including screening candidates, coordinating training, and maintaining records. This role enhanced my skills in organisational operations, data management, and interpersonal communication.
